For this Covenanting Service, Yujene chose the above symbols that members of the congregation presented to her and then placed on the communion table. Over the next two years, these symbols will be a reminder of significant worship objects and spiritual guidance as Thorold Trinity grows and changes and Yujene fulfills practical experience on her way to ordination.

Yujene proposes to initiate an outreach opportunity. Volunteers meet with those in our community wishing to improve their conversational English. You don't have to be an English teacher; just offer casual discussions about everyday things to practice understanding and pronunciation over a cup of coffee or tea. The project is considering meeting once a week for a 5-week cycle starting in September. If you are interested in this volunteer opportunity – please connect with Yujene and pick up a poster to share in the community.
